OFFICE OF THE HEADMASTER

To the Class of 1980:

Yours is the first graduating class in my eight years at Cushing that I have taken for granted. Now I know full well that the phrase "taken for granted" is not generally considered a complimentary term. But in your case I believe it to be a very large compliment to you, to the graduating classes which have immediately preceded you and to those now enrolled here who will follow you.

Just what is taken for granted? Well, that you are good and positive and competent; that you obviously enjoy the program which Cushing offers; that you delight in your friendships with each other and with your teachers.

Whether or not your class brings to Cushing athletic championships, or national recognition in the arts, or top scholastic honors, or numerous acceptances to highly competitive colleges you have added marvelously to the excellence that now characterizes your school.

The world will never suffer a surfeit of good and competent people. The families you will create and the institutions and the society you will influence need you for what you are now and for what you can become.

So I bid you goodbye and Godspeed. And I look forward to seeing you return as alumni so that your good influence here can continue.

Sincerely yours,

  
Joseph R. Curry  
Headmaster

Have deep concern for your fellow man and to want to help them. This is part of what makes the human life so wonderful. And it's something we need a lot more of in this world - understanding, communication, and love for one another. Most of all have an abiding love for God. All any man has to do is reach out for God and ask, believing he will receive. And the love and faith that is given to him is beyond anything that man can offer, and is never weakened by disappointment or discouragement, but strengthens him in everything he does and in every walk of life he chooses to travel. My life revolves around my faith in God and the love I have for him and a very special girl.

As the velocity of any object increases, its internal time frame slows, and that at the velocity of light - the limit of speed in the universe - the object ceases to function inwardly at all. Our minds work in a similar manner. I find that the faster my body travels the slower my mind seems to work. What seems like an eternity to calculate a movement actually passes almost instantaneously until finally at the crescendo of speed there is no thought at all. It is simply a case of reflex, instinct and faith . . . Faith?

Here I stand before another runaway,  
Seems like it's never gonna end.  
I wonder where we'll fly this time,  
This time I'd really love to stay awhile.  
Ups and downs, its another shattered dream,  
I arrive for a brand new start,  
Sometimes I feel life is an endless flight,  
Waiting around for the last touchdown,  
The last touchdown before my eyes.  
Ain't it hard to start all over,  
Looking on what do I see,  
Ain't it hard to start all over, When I think about the  
future & me.

Society is commonly too cheap. We meet at very short intervals, not having had time to acquire any new value for each other. We meet at meals three times a day, and give each other a new taste of that old musty cheese that we are. We have had to agree on a certain set of rules, called etiquette and politeness, to make this frequent meeting tolerable and that we need not to come to open war. We meet at the post office, and at the sociable, and about the fireside every night; we live thick and in each other's way, and stumble over one another, and I think that we thus lose some respect for one another.

I am but a hobbit seeking adventure  
One of my adventures brought me to a mystic hill  
And at the peak of it the small town of Penguinville.  
I first settled in an area called Cooke  
Total madness and rage is what us hobbits undertook  
I joined an army with a 6-1 season  
Good coaching from a great man was mainly the reason  
Then I advanced to the community of Ash  
With brave skipper Guy Bramble, we had quite a bash.  
Our army that year was as good as the other  
That was because I fought beside my brother  
After a distinctive year of Ash I moved into Lowe  
What happened to me that year, I'm sure we all know.  
I was rejected, kaput, hit the Hershey highway  
Because up until then us hobbits did things our way.  
Although we tried to be good and work real hardy  
We always managed to goof, break things and always  
party.  
But I returned as a day hobbit at my own will,  
Why I did it I wonder still  
I promised myself one thing before I left this place  
I'd get my Penguinville diploma, or tear out my face,  
Because I'm just a hobbit seeking adventure.

Hey Steve  
 Have a great  
 Summer - see  
 you again next  
 year. Will you  
 be class pres.  
 again. I hope  
 next year is even  
 better than this  
 year  
 Paul M

P.S. don't forget U.S.  
 History and the daily Q's.

Stere, Another year at CA.  
 Oh my - we made it! I didn't  
 think I'd make it through history  
 (may-be I didn't) well, I didn't  
 see you or Danny  
 wear your Tofts Jacket  
 as much as last year, but that's ok

# Varsity Volleyball

Danny's  
 was getting  
 a little worn  
 anyway  
 I can't believe  
 next year  
 we will be  
 Seniors!  
 I'm so  
 Psyched!  
 you must  
 be too, I  
 don't think  
 I could make  
 it here for  
 4 years,  
 I think  
 that is an  
 accomplishment!  
 oh well,  
 have an  
 excellent  
 summer,  
 see you next  
 year - what a  
 great class!  
 love Kris
